

# Co-branding

## Print media

### Co-branding on media

#### Media

Please consider a variety of company-related media when it comes to co-branding, specifically partner and Signia media.

#### Signia media

There are three different layout variations available for co-branding media in DIN A5 format, and two for DIN A6 media. All sales partners are allowed to design their reserved area as desired.

#### Partner media

Partner media contain the Signia logo rectangle. The Signia logo is placed on a white background with its necessary exclusion area.
